

DIAGNOSTIC ULTRASOUND SERVICES

RMS provide specialist ultrasound scanning services for NHS Trusts, designed to maximise capacity on your in-house ultrasound scanners. Our solution reduces waiting lists for complex ultrasound scans and is delivered by a team of highly qualified and experienced sonographers.

We work with Trusts to design and deliver a flexible ultrasound service, from one day a week up to a 7-day, 18-hour service, from one scan to a completely managed service. Our team will open the existing ultrasound department out of hours and at weekends to ensure that NHS scanners are running at maximum capacity. Our team of 16 sonographers perform over 20,000 scans annually across the UK. RMS offer a patient-centric approach, by ensuring that scans are delivered at the right time, in the right place and are undertaken by dedicated and highly

experienced clinicians. We only use UK trained sonographers. All sonographers have master's level qualification from C.A.S.E accredited UK universities. Our team of general ultrasound clinicians undertake all areas including:

- **Abdomen**
- **Renal**
- **Pelvis**
- **Aorta**
- **Obstetrics**

Specialist in Musculoskeletal and Vascular

Our clinicians have a wealth of experience and expertise and routinely undertake the following scans daily:

- Tendon tears or tendinitis in the shoulder, elbow, hand /wrist, hip, knee, ankle and foot
- Muscle tears, strains and pulls throughout the body
- Small parts and scrotum
- Hernias
- Rheumatology scanning using the standardised US definition and quantification system for RA synovitis including combined and individual SH and PD components.
- Nerve entrapments such as carpal tunnel syndrome

Fertility Services

Our highly skilled and qualified sonographers provide a range of fertility scans, with concise and useful scan reports immediately after the scan is complete. Fertility services include:

- Ultrasound scans and follicle tracking
- Baseline Antral Follicle Count
- Cycle Synchronisation
- Endometrial thickening scan
- Visibility scan

Quick access to Ultrasound service

NHS Trusts can access RMS Ultrasound services quickly and efficiently through a multi-supplier framework agreement. The agreement with the Countess of Chester Hospital's commercial procurement services negates the need for tendering and is quick and easy to access.

Testimonials

The radiology team at a leading Welsh Health Board suffered a significant strain on their waiting lists which left 865 scans due to breach. RMS scanned all of these patients within 6 weeks whilst also supporting the daily Ultrasound lists. We're proud to say that our team has never had any downtime or missed a scan for this Trust and we've been working with this customer for over 2 years.

Our Ultrasound team has been so successful in offering our 'Integrated Capacity Services' for NHS Trusts, one Hospital in the Northwest has used our services weekly for the last 5 years.

We would be pleased to supply references from various NHS Trusts /CCGs/Clients.
